SmallFish ERP M2 - UI Mockups Group 2

Vishaal Bakshi Jason De Boer Jason Lyster Parker Siroishka Matthew Buhler

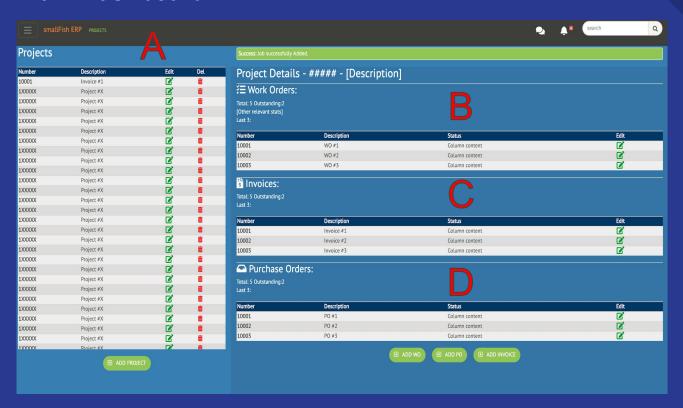

Login Screen

A - **Login Window**: Login dialogue on first visit. No option to create a new user as it is assumed an administrator will provide employees with the necessary credentials.

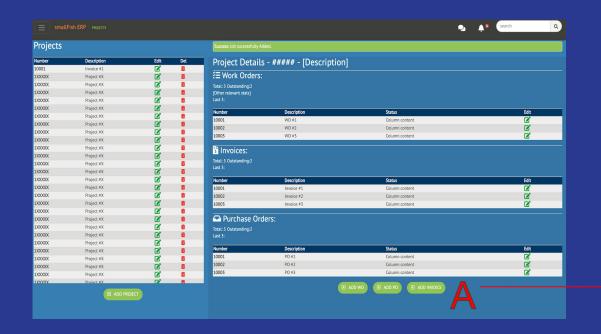

Upon successful login, users are taken to *Main Dashboard*.

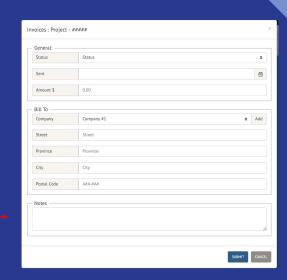

Main Dashboard

A - **Project List**: A list of all created projects. Ability to create new projects is located at bottom of list A. B,C,D - Project Details: Each Work Order, Invoice, or Purchase order is added to their respective table when created via buttons on bottom right of page.

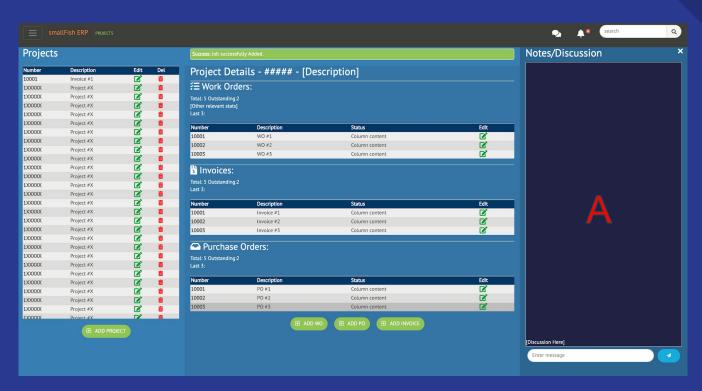

Main Dashboard Adding New Items

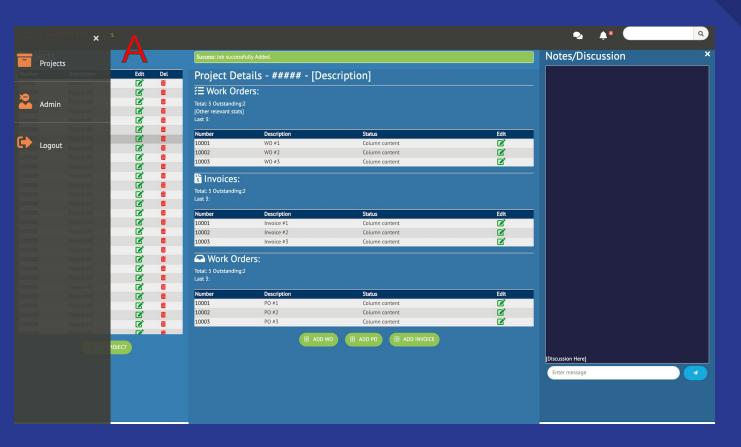

A - Create new work order/purchase order/invoice: Clicking these buttons brings up a window to allow users to fill in the details of each order or invoice they wish to add to an existing project.

Dashboard with Chat

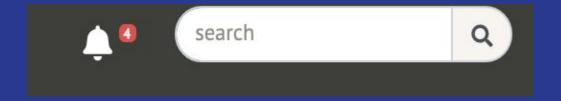

A - **General Employee Discussion Board:** This chat will consist of a real time communication stream between all active users on the site. Type message in message box and click send and your message will be viewable by all.

Dashboard Breadcrumb

A - Expanded navigation bar: Allows you to navigate to the Projects dashboard (slide.3) or the Admin page or logout of your account.

Search / Notifications

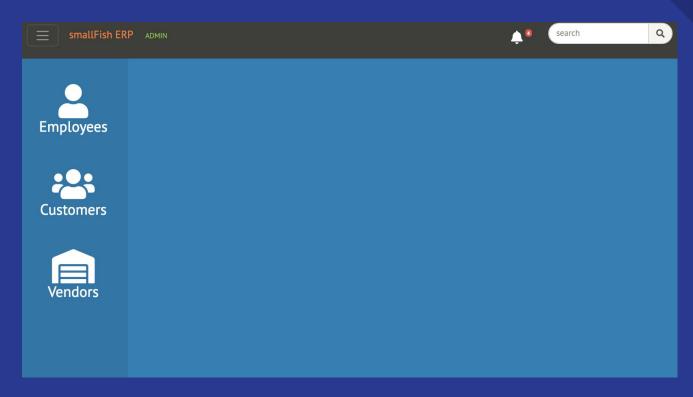

Search Bar & Notification Centre: Search bar will apply to the current page the user is on and to the current table displayed on screen. The notification centre will illuminate when a change has been made to a project the user is currently a part of.

Invoices Detail

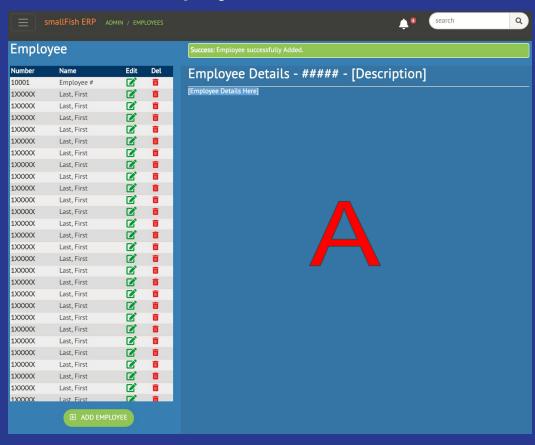

Invoices Detail: A high level list of all current invoices, including invoice number, description and any other applicable details. Ability to edit or delete new invoices can be found on the right side .

Admin Screen

Admin Screen: Admins will have access to a separate side menu with Employees, Customers and Vendors links. These will take the admin into more detailed menus with information on all three. This screen is not visible to any regular user.

Add / View Employees

Add/view Employees Page:

Allows you (if you are an admin) to add new employees, view their details such as employee number and name, edit their details, or remove them as employees.

Clicking on an employee fro
